

A – Level Psychology

A-Level Psychology Overview:

Psychology is the scientific study of the human mind and behaviour. Psychology A-level is a multifaceted discipline and includes many sub-fields of study, including; evolution, interpersonal interactions, cognition, human development and neurobiology.

The Psychology programme at Woodrush is a good introduction to Psychology and will give you a broad insight into the different theories of how human behaviour is shaped. The human brain is an incredible structure, and our minds are a mystery to many of us. By studying A Level Psychology you can begin to understand why humans feel, think and behave the way that they do. If you are interested in human behaviour and why we are all different but also share similarities, then A Level Psychology is for you.
