Statement of intent

1. Legal framework
2. Roles and responsibilities
3. Organisation of the RSHE curriculum
4. Our guiding principles for effective RSHE
5. Secondary relationships and sex education curriculum content
6. Secondary Health & Wellbeing curriculum content
7. Health education programmes of study
8. Delivery of the curriculum
9. Curriculum links
10. Working with parents
11. Working with external agencies
12. Withdrawal from lessons
13. Equality and accessibility
14. Safeguarding and confidentiality
15. Assessment
16. Staff training
17. Monitoring and review

Statement of intent

Throughout this document, unless otherwise stated, we use the term 'RSE' to refer to secondary schools' relationships education/ relationships and sex education policy.

The intent of our RSE programme at Woodrush High School is to deliver a curriculum which is accessible to all and ensures that each of our pupils will understand more about how to **forge and maintain healthy, relationships** and contribute successfully within their community and society at large. Our objective is to support pupils' spiritual, moral, cultural, mental and physical development; prepare and equip them for the opportunities, responsibilities and experiences of life.

We want to provide all pupils with a **knowledge** of their world on a local, national and global scale and give them the confidence and social and **communication skills** necessary to tackle many of the moral, social and cultural issues that they face; so that they can make informed, healthier and safer choices.

Our pupils will learn about rights and responsibilities and how to be a respectful member of a diverse and multicultural society, embodying British values. In preparation for working life, our careers education and financial capability elements intend to **nurture, broaden and raise their aspirations**.

Equality, diversity and inclusion is at the forefront of what we offer to ensure all our pupils feel valued and empowered and achieve the best they can.

The policy will be used by:

- **Teachers** to inform their planning and approach to delivering RSE
- **Parents and carers** to understand the RSE curriculum and how it benefits their children. They may also want to know how the curriculum aligns with the school's values, the rationale for the choice of topics, and what measures are in place to ensure teaching is delivered safely and inclusively
- **Health professionals, visiting speakers** etc to know the aims, objectives and values the school's RSE promotes, agreed teaching methodologies and approaches for their work with pupils, including how to support safeguarding procedures and respond to disclosures
- **Inspectors** to begin to understand the school's provision before an inspection takes place

1. Legal framework

This policy has due regard to all relevant legislation and statutory guidance including, but not limited to, the following:

- Equality Act 2010 and the Public Sector Equality Duty.
- The Relationships Education, Relationships and Sex Education and Health Education (England) Regulations 2019
- Children and Social Work Act 2017
- DfE 'Keeping children safe in education'
- DfE 'Teaching about relationships, sex and health'
- DfE (2025) 'Relationships Education, Relationships and Sex Education (RSE) and Health Education'
- DfE (2015) 'National curriculum in England: science programmes of study'

This policy operates in conjunction with the following school policies and statements:

- Behaviour Policy
- Online Safety Policy
- Anti-bullying statement
- Safeguarding and Child Protection Policy
- Positive Mental Health & Wellbeing Policy

2. Roles and responsibilities

The governing committee is responsible for ensuring:

- all pupils make progress in achieving the expected educational outcomes
- teaching is accessible to all pupils with SEND
- curriculum content and teaching materials are aligned with this statutory guidance
- clear information is provided for parents on the subject content, teaching materials and external providers, and on the right to request that their child is withdrawn from sex education

The headteacher is responsible for:

- The overall implementation of this policy.
- Ensuring all staff are suitably trained to deliver the subjects.
- Ensuring parents are fully informed of this policy.
- Reviewing all requests to withdraw pupils from non-statutory elements of the RSHE curriculum.
- Discussing withdrawal requests with parents, and the pupil if appropriate, to ensure their wishes are understood and to clarify the nature and purpose of the curriculum, including the benefits of receiving the education.
- Ensuring withdrawn pupils receive appropriate, purposeful education during the period of withdrawal.

- Encouraging parents to be involved in consultations regarding reviews of the school's RSHE curriculum.
- Reviewing this policy on an annual basis.
- Reporting to the governing committee on the effectiveness of this policy and the curriculum.

The RSHE subject leader is responsible for:

- Overseeing the delivery of RSHE.
- Working closely with colleagues in related curriculum areas to ensure the RSHE curriculum compliments, and does not duplicate, the content covered in other curriculum subjects.
- Ensuring the curriculum is age-appropriate and of high quality.
- Reviewing changes to the RSHE curriculum and advising on their implementation.
- Monitoring the learning and teaching of RSHE, providing support to staff where necessary.
- Ensuring the continuity and progression between each year group.
- Helping to develop colleagues' expertise in the subject.
- Ensuring teachers are provided with adequate resources to support teaching of the curriculum.
- Ensuring the school meets its statutory requirements in relation to RSHE.
- Leading staff meetings and ensuring all members of staff involved in the curriculum have received the appropriate training.
- Organising, providing and monitoring CPD opportunities in the subject.
- Ensuring the correct standards are met for recording and assessing pupil performance.
- Monitoring and evaluating the effectiveness of the subjects and providing reports to the headteacher.

The DSL is responsible for:

- Offering advice and consultation for safeguarding-related subjects in the RSHE curriculum.
- Promoting knowledge and awareness of safeguarding issues amongst staff.
- Being an appropriate point of contact for staff who have concerns about the welfare of a pupil that have arisen through the teaching of RSHE.

RSE teachers are responsible for:

- Engaging in relevant RSE training as part of Woodrush's wider subject enhancement and CPDL programme. This includes numerous aspects of our safeguarding training programme.
- Acting in accordance with, and promoting, this policy.
- Delivering RSHE in a manner that is sensitive, of high quality and appropriate for each year group.

- Ensuring they do not express personal views or beliefs when delivering the curriculum.
- Planning lessons effectively, ensuring a range of appropriate teaching methods and resources are used to cover the content.
- Modelling positive attitudes to RSHE.
- Liaising with the SENCO to identify and respond to individual needs of pupils with SEND. Liaising with the RSHE subject leader on key topics, resources and support for individual pupils.
- Monitoring pupil progress in RSHE.
- Reporting any concerns regarding the teaching of RSE or health education to the RSHE subject leader or a member of the SLT.
- Reporting any safeguarding concerns or disclosures that pupils may make as a result of the subject content to the DSL.
- Responding appropriately to pupils whose parents have requested to withdraw them from the non-statutory components of RSE, by providing them with alternative education opportunities.

The SENCO is responsible for:

- Advising teaching staff how best to identify and support pupils' individual needs.
- Advising staff on the use of TAs in order to meet pupils' individual needs.

Diversity and inclusion

The policy should be sensitive to:

- the religious and cultural views of the school community (remembering that under the Equality Act 2010, religion or belief are amongst the protected characteristics)
- the experiences of LGBTQ+ pupils and those with LGBTQ+ family members (sexual orientation and gender reassignment are protected characteristics under the 2010 Equality Act); teaching related to sexual orientation and gender reassignment should be delivered clearly, sensitively and respectfully, in line with the statutory guidance and best practice principles
- the needs of all pupils, with their diverse experiences, including those with special educational needs and disabilities (SEND)

3. Organisation of the RSHE curriculum

For the purpose of this policy:

- **"RSHE"** is used to refer to the overall programme of relationships, sex and health education.
- **"RSE"** refers to relationships and sex education and is defined as teaching pupils about developing healthy, nurturing relationships of all kinds, and helping them to understand human sexuality and to respect themselves and others.

- **“Health education”** is defined as teaching pupils about how they can make good decisions about their own health and wellbeing, and how physical health and mental wellbeing are interlinked.

The RSHE curriculum has been developed, and will be monitored and reviewed, in consultation with teachers, pupils and parents, and in accordance with DfE recommendations.

We will gather the views of teachers, pupils and parents in the following ways:

- Questionnaires
- Meetings
- Letters
- Training sessions

The majority of the RSHE curriculum is delivered through PSHE education, with statutory elements taught via the science curriculum. The RSHE subject leader will work closely with their colleagues in related curriculum areas to ensure the curriculum complements and does not duplicate the content covered in national curriculum subjects.

The school will ensure that the curriculum remains in line with the [DfE's \(2025\) 'Relationships Education, Relationships and Sex Education \(RSE\) and Health Education' guidance](#) at all times.

The school will consider the context and views of the wider local community when developing the curriculum to ensure it is reflective of circumstances in the local area. The religious background of all pupils will also be considered when planning teaching, to ensure all topics included are appropriately handled.

The RSHE curriculum will be informed by topical issues in the school and wider community, to ensure it is tailored to pupils' needs, e.g. if there was a local prevalence of specific sexually transmitted infections, our curriculum would be tailored to address this issue.

4. Our guiding principles for effective RSHE

We have developed our curriculum with the following key principles in mind:

a. Engagement with pupils. An inclusive and well-sequenced RSHE curriculum should be informed by meaningful engagement with Woodrush pupils to ensure that the curriculum is relevant and engaging.

b. Engagement and transparency with parents. We will engage with parents on the content of RSHE and be transparent with parents about all materials used in RSHE. All materials should be available to parents, as part of our ongoing commitment to openness with parents. Woodrush parents have a right to request that their children are withdrawn from sex education (pupils can opt back in from three terms before

they turn 16) and we will ensure parents are aware of sex education content within lessons in advance.

c. Positivity. We should focus on building positive attitudes and skills, promoting healthy norms about relationships, including sexual relationships where relevant, and about health, including mental health. We will avoid language which might normalise harmful behaviour among young people – for example gendered language which might normalise male violence or stigmatise boys.

d. Careful sequencing. We will cover all statutory topics, recognising that young people can start developing healthy behaviour and relationship skills as soon as they start school. We will sequence teaching so that Woodrush pupils are supported and equipped with the knowledge to navigate different experiences in a positive way before they occur, and to prevent harms.

e. Relevant and responsive. We will develop the curriculum to be relevant, age and stage appropriate and accessible to Woodrush pupils in their area, where appropriate working with local partners and other bodies to understand specific local issues and ensure needs are met.

f. Skilled delivery of participative education. Our curriculum should be delivered by school staff or, where schools choose to use them, external providers who have the knowledge, skills and confidence to create a safe and supportive environment and to facilitate participative and interactive education which aims to support and not to alarm pupils. Woodrush staff will be trained in safeguarding and offering support, recognising the increased possibility of disclosures.

g. Whole school approach. We know that the RSE curriculum is best delivered as part of a whole school approach to wellbeing and positive relationships, supported by other school policies, including behaviour and safeguarding policies.

5. Secondary relationships & sex education curriculum content

RSE in secondary should provide a clear progression from primary relationships education. RSE should provide young people with the information they need to develop healthy, safe and nurturing relationships of all kinds. This should include the knowledge they need in later life to keep themselves and others safe, and how to avoid sexually transmitted infections and unplanned pregnancies.

Effective RSE focuses on respect for oneself and others and does not encourage or normalise early sexual experimentation. By supporting confidence and self-esteem, RSE will enable young people to make their own choices about whether or when to develop safe, fulfilling and healthy sexual relationships, once they reach the age of consent, and to resist pressure to have sex. Effective teaching will be participative and interactive and will give pupils opportunities to develop skills and to discuss and critically evaluate complex relationship scenarios.

RSE in secondary will cover a range of topics, including topics related to abusive behaviour. While teaching children how to stay safe, including online, teachers should be clear that being a victim of abuse is never the fault of the child or young person. Different forms of abuse should be addressed sensitively and clearly at appropriate ages.

For pupils who are experiencing or have experienced unhealthy or unsafe relationships, including at home, schools have an important role as a place of consistency and safety where pupils can find support. When teaching sensitive topics, teachers can use approaches such as distancing techniques, setting ground rules with the class to help manage sensitive discussion, and using question boxes to allow pupils to raise issues anonymously.

Families

Curriculum content:

1. That there are different types of committed, stable relationships.
2. How these relationships might contribute to wellbeing, and their importance for bringing up children.
3. Why marriage or civil partnership is an important relationship choice for many couples. The legal status of marriage and civil partnership, including that they carry legal rights, benefits and protections that are not available to couples who are cohabiting or who have, for example, undergone a non-legally binding religious ceremony.
4. That 'common-law marriage' is a myth and cohabitants do not obtain marriage-like status or rights from living together or by having children.
5. That forced marriage and marrying before the age of 18 are illegal.
6. How families and relationships change over time, including through birth, death, separation and new relationships.
7. The roles and responsibilities of parents with respect to raising children, including the characteristics of successful parenting and the importance of the early years of a child's life for brain development.
8. How to judge when a relationship is unsafe and where to seek help when needed, including when pupils are concerned about violence, harm, or when they are unsure who to trust.

Respectful relationships, including friendships

Curriculum content:

1. The characteristics of positive relationships of all kinds, online and offline, including romantic relationships. For example, pupils should understand the role of consent, trust, mutual respect, honesty, kindness, loyalty, shared interests and outlooks, generosity, boundaries, tolerance, privacy, and the management of conflict, reconciliation and ending relationships.

2. How to evaluate their impact on other people and treat others with kindness and respect, including in public spaces and including strangers. Pupils should understand the legal rights and responsibilities regarding equality, and that everyone is unique and equal.
3. The importance of self-esteem, independence and having a positive relationship with oneself, and how these characteristics support healthy relationships with others. This includes developing one's own interests, hobbies, friendship groups, and skills. Pupils should understand what it means to be treated with respect by others.
4. What tolerance requires, including the importance of tolerance of other people's beliefs.
5. The practical steps pupils can take and skills they can develop to support respectful and kind relationships. This includes skills for communicating respectfully within relationships and with strangers, including in situations of conflict.
6. The different types of bullying (including online bullying), the impact of bullying, the responsibilities of bystanders to report bullying and how and where to get help.
7. Skills for ending relationships or friendships with kindness and managing the difficult feelings that endings might bring, including disappointment, hurt or frustration.
8. The role of consent, including in romantic and sexual relationships. Pupils should understand that ethical behaviour goes beyond consent and involves kindness, care, attention to the needs and vulnerabilities of the other person, as well as an awareness of power dynamics. Pupils should understand that just because someone says yes to doing something, that doesn't automatically make it ethically ok.
9. How stereotypes, in particular stereotypes based on sex, gender reassignment, race, religion, sexual orientation or disability, can cause damage (e.g. how they might normalise non-consensual behaviour or encourage prejudice). Pupils should be equipped to recognise misogyny and other forms of prejudice.
10. How inequalities of power can impact behaviour within relationships, including sexual relationships. For example, how people who are disempowered can feel they are not entitled to be treated with respect by others or how those who enjoy an unequal amount of power might, with or without realising it, impose their preferences on others.
11. How pornography can negatively influence sexual attitudes and behaviours, including by normalising harmful sexual behaviours and by disempowering some people, especially women, to feel a sense of autonomy over their own body and providing some people with a sense of sexual entitlement to the bodies of others.
12. Pupils should have an opportunity to discuss how some sub-cultures might influence our understanding of sexual ethics, including the sexual norms endorsed by so-called "involuntary celibates" (incels) or online influencers.

Online and media

Curriculum content:

1. Rights, responsibilities and opportunities online, including that the same expectations of behaviour apply in all contexts, including online.
2. Online risks, including the importance of being cautious about sharing personal information online and of using privacy and location settings appropriately to protect information online. Pupils should also understand the difference between public and private online spaces and related safety issues.
3. The characteristics of social media, including that some social media accounts are fake, and / or may post things which aren't real / have been created with AI. That social media users may say things in more extreme ways than they might in face-to-face situations, and that some users present highly exaggerated or idealised profiles of themselves online.
4. Not to provide material to others that they would not want to be distributed further and not to pass on personal material which is sent to them. Pupils should understand that any material provided online might be circulated, and that once this has happened there is no way of controlling where it ends up. Pupils should understand the serious risks of sending material to others, including the law concerning the sharing of images.
5. That keeping or forwarding indecent or sexual images of someone under 18 is a crime, even if the photo is of themselves or of someone who has consented, and even if the image was created by the child and/or using AI generated imagery. Pupils should understand the potentially serious consequences of acquiring or generating indecent or sexual images of someone under 18, including the potential for criminal charges and severe penalties including imprisonment. Pupils should know how to seek support and should understand that they will not be in trouble for asking for help, either at school or with the police, if an image of themselves has been shared. Pupils should also understand that sharing indecent images of people over 18 without consent is a crime.
6. What to do and how to report when they are concerned about material that has been circulated, including personal information, images or videos, and how to manage issues online.
7. About the prevalence of deepfakes including videos and photos, how deepfakes can be used maliciously as well as for entertainment, the harms that can be caused by deepfakes and how to identify them.
8. That the internet contains inappropriate and upsetting content, some of which is illegal, including unacceptable content that encourages misogyny, violence or use of weapons. Pupils should be taught where to go for advice and support about something they have seen online. Pupils should understand that online content can present a distorted picture of the world and normalise or glamorise behaviours which are unhealthy and wrong.

9. That social media can lead to escalations in conflicts, how to avoid these escalations and where to go for help and advice.
10. How to identify when technology and social media is used as part of bullying, harassment, stalking, coercive and controlling behaviour, and other forms of abusive and/or illegal behaviour and how to seek support about concerns.
11. That pornography, and other online content, often presents a distorted picture of people and their sexual behaviours and can negatively affect how people behave towards sexual partners. This can affect pupils who see pornographic content accidentally as well as those who see it deliberately. Pornography can also portray misogynistic behaviours and attitudes which can negatively influence those who see it.
12. How information and data is generated, collected, shared and used online.
13. That websites may share personal data about their users, and information collected on their internet use, for commercial purposes (e.g. to enable targeted advertising).
14. That criminals can operate online scams, for example using fake websites or emails to extort money or valuable personal information. This information can be used to the detriment of the person or wider society. About risks of sextortion, how to identify online scams relating to sex, and how to seek support if they have been scammed or involved in sextortion.
15. That AI chatbots are an example of how AI is rapidly developing, and that these can pose risks by creating fake intimacy or offering harmful advice. It is important to be able to critically think about new types of technology as they appear online and how they might pose a risk.

Being safe

Curriculum content:

1. How to recognise, respect and communicate consent and boundaries in relationships, including in early romantic relationships (in all contexts, including online) and early sexual relationships that might involve kissing or touching. That kindness and care for others requires more than just consent.
2. That there are a range of strategies for identifying, resisting and understanding pressure in relationships from peers or others, including sexual pressure, and how to avoid putting pressure on others.
3. How to determine whether other children, adults or sources of information are trustworthy, how to judge when a relationship is unsafe (and recognise this in the relationships of others); how to seek help or advice, including reporting concerns about others, if needed.
4. How to increase their personal safety in public spaces, including when socialising with friends, family, the wider community or strangers. Pupils should learn ways of seeking help when needed and how to report harmful behaviour. Pupils should understand that there are strategies they can use to increase their safety, and that this does not mean they will be blamed if they are victims of harmful behaviour. Pupils might reflect on the importance of trusting their

instincts when something doesn't feel right, and should understand that in some situations a person might appear trustworthy but have harmful intentions.

5. What constitutes sexual harassment or sexual violence, and that such behaviour is unacceptable, emphasising that it is never the fault of the person experiencing it.
6. That sexual harassment includes unsolicited sexual language / attention / touching, taking and/or sharing intimate or sexual images without consent, public sexual harassment, pressuring other people to do sexual things, and upskirting.
7. The concepts and laws relating to sexual violence, including rape and sexual assault.
8. The concepts and laws relating to harmful sexual behaviour, which includes all types of sexual harassment and sexual violence among young people but also includes other forms of concerning behaviour like using age-inappropriate sexual language.
9. The concepts and laws relating to domestic abuse, including controlling or coercive behaviour, emotional, sexual, economic or physical abuse, and violent or threatening behaviour.
10. That fixated, obsessive, unwanted and repeated behaviours can be criminal, and where to get help if needed.
11. The concepts and laws relating to harms which are exploitative, including sexual exploitation, criminal exploitation and abuse, grooming, and financial exploitation.
12. The concepts and laws relating to forced marriage.
13. The physical and emotional damage which can be caused by female genital mutilation (FGM), virginity testing and hymenoplasty, where to find support, and the law around these areas. This should include that it is a criminal offence for anyone to perform or assist in the performance of FGM, virginity testing or hymenoplasty, in the UK or abroad, or to fail to protect a person under 16 for whom they are responsible.
14. That strangulation and suffocation are criminal offences, and that strangulation (applying pressure to the neck) is an offence, regardless of whether it causes injury. That any activity that involves applying force or pressure to someone's neck or covering someone's mouth and nose is dangerous and can lead to serious injury or death.
15. That pornography presents some activities as normal which many people do not and will never engage in, some of which can be emotionally and/or physically harmful.
16. How to seek support for their own worrying or abusive behaviour or for worrying or abusive behaviour they have experienced from others, including information on where to report abuse, and where to seek medical attention when required, for example after an assault.

Intimate and sexual relationships, including sexual health

Curriculum content:

1. That sex, for people who feel ready and are over the age of consent, can and should be enjoyable and positive.
2. The law about the age of consent, that they have a choice about whether to have sex, that many young people wait until they are older, and that people of all ages can enjoy intimate and romantic relationships without sex.
3. Sexual consent and their capacity to give, withhold or remove consent at any time, even if initially given, as well as the considerations that people might take into account prior to sexual activity, e.g. the law, faith and family values. That kindness and care for others require more than just consent.
4. That all aspects of health can be affected by choices they make in sex and relationships, positively or negatively, e.g. physical, emotional, mental, sexual and reproductive health and wellbeing.
5. That some sexual behaviours can be harmful.
6. The facts about the full range of contraceptive choices, efficacy and options available, including male and female condoms, and signposting towards medically accurate online information about sexual and reproductive health to support contraceptive decision making.
7. That there are choices in relation to pregnancy. Pupils should be given medically and legally accurate and impartial information on all options, including keeping the baby, adoption, abortion and where to get further help.
8. How the different sexually transmitted infections (STIs), including HIV, are transmitted. How risk can be reduced through safer sex (including through condom use). The use and availability of the HIV prevention drugs Pre-Exposure Prophylaxis (PrEP) and Post Exposure Prophylaxis (PEP) and how and where to access them. The importance of, and facts about, regular testing and the role of stigma
9. The prevalence of STIs, the short and long term impact they can have on those who contract them and key facts about treatment.
10. How the use of alcohol and drugs can lead people to take risks in their sexual behaviour.
11. How and where to seek support for concerns around sexual relationships including sexual violence or harms.
12. How to counter misinformation, including signposting towards medically accurate information and further advice, and where to access confidential sexual and reproductive health advice and treatment.

Woodrush RSE programmes of study

The school will determine an age-appropriate, developmental curriculum which meets the needs of young people and includes the statutory content outlined in [section 4](#) of this policy.

Year 7

- Signs of a healthy relationship
- Signs of a harmful relationship
- Protecting / conducting myself online
- My identity and heritage
- My rights
- Features of consent

Year 8

- Bullying and banter
- Gender stereotypes and misogyny
- Pornographic material and its impact
- Peer pressure and online behaviour
- Family life and contributions
- Conflict at home
- Different forms of abuse in relationships
- Consent in scenarios

Year 9

- Behaviours in an unhealthy relationship
- Exploitation and abuse in relationships
- Explicit material, the law and consequences
- Different types of relationships and healthy behaviours
- Features of domestic abuse
- Skills for successful relationships and ending relationships
- Sexual readiness

Year 10

- Violence in relationships
- Sexual harassment and reporting it
- Impact of pornography on relationships
- Impact of gender stereotypes in our society
- Features of sexual relationships, showing love and affection

Year 11

- Features of misogynistic behaviours
- Sexual coercion, sexual harassment and stalking
- Revenge porn and its impact
- Consent, rape and sexual abuse
- Features of safe sex in a healthy relationship

6. Secondary health and wellbeing curriculum content

The aim of teaching about health and wellbeing is to enable pupils to make good decisions about their own health and wellbeing, to understand the links between physical and mental health, to recognise when things are not right in their own health or the health of others and to seek support when needed. Schools should support pupils to develop strategies for self-regulation, perseverance and determination, even in the face of setbacks. Effective teaching should aim to reduce stigma attached to health issues, in particular relating to mental health, and discourage the pejorative use of language related to ill health. Schools should promote openness, so that pupils can check their understanding and seek any necessary help and advice. Curriculum content related to puberty and menstruation should be complemented by sensitive arrangements to help girls prepare for and manage menstruation, including with requests for period products. Schools should use appropriate language such as period pads and menstrual products instead of sanitary items or feminine hygiene products.

Teaching in secondary should build on primary content, supporting pupils to understand their changing bodies and their feelings, how to protect their own health and wellbeing, and when a physical or mental health issue requires attention.

Secondary schools may also choose to teach about issues which are not listed in the secondary curriculum content. This includes topics such as eating disorders and self harm. These topics can be taught about in secondary schools in a safe and sensitive way but are specialised areas and schools should use qualified support or advice, ensure that they are using reliable high-quality teaching material, and signpost to external support as needed. Schools may consider accessing support from the NHS or local specialist services who may be able to provide advice and CPD for teachers. It is important that schools ensure that teachers are properly equipped to lead discussions about these topics, including what to do if a pupil makes a disclosure.

We will consider how to safely address suicide prevention. Many aspects of suicide prevention are addressed through the mental wellbeing curriculum. Starting in primary school, the curriculum includes recognising and talking about emotions, looking after one's own and others' wellbeing, being worried about friendships, other relationships, and judging whether feelings or behaviour require support. The curriculum will discuss isolation, loneliness and bullying, and how to cope when things go wrong in life. It is also important to ensure pupils understand how to seek help from a trusted adult, including when they are concerned about another person.

We will consult mental health professionals and put in place high quality, evidence-based staff training before addressing suicide directly with secondary aged pupils, to ensure that staff have the knowledge and skills to do this safely. It is important that Woodrush teachers use language and content that is accurate, straightforward and appropriate to the level of understanding of the class. We should take particular care not to discuss instructions or methods of self-harm or suicide and avoid using emotive language, videos or images as there is a risk this could signpost pupils towards

dangerous ideas and online content of which they may not previously have been aware.

Secondary schools should consider carefully when it is suitable to deliver suicide prevention content, taking into account the age, maturity, and personal experiences of pupils as well as the views of parents and the confidence and skills of teachers, recognising that pupils' emotional and cognitive maturity to understand this material increases across the early secondary years.

It is also important that we take a similar approach to addressing eating disorders, ensuring that staff have the knowledge and skills to do this safely. Teachers should take care to avoid language which romanticises eating disorders and avoid discussing instructions, methods or ideas of restriction, bingeing or purging.

If teachers at Woodrush have concerns about a specific pupil in relation to eating disorders, self-harm or suicidal ideation or attempts, or a pupil discloses information, they must follow our safeguarding procedures.

Mental wellbeing

Curriculum content

1. How to talk about their emotions accurately and sensitively, using appropriate vocabulary.
2. The benefits and importance of physical activity, sleep, time outdoors, community participation and volunteering or acts of kindness for mental wellbeing and happiness.
3. That happiness is linked to being connected to others. Pupils should be supported to understand what makes them feel happy and what makes them feel unhappy, while recognising that loneliness can be for most people an inevitable part of life at times and is not something of which to be ashamed.
4. That worrying and feeling down are normal, can affect everyone at different times and are not in themselves a sign of a mental health condition, and that managing those feelings can be helped by seeing them as normal.
5. Characteristics of common types of mental ill health (e.g. anxiety and depression), including carefully-presented factual information about the prevalence and characteristics of more serious mental health conditions. This should not be discussed in a way that encourages normal feelings to be labelled as mental health conditions.
6. How to critically evaluate which activities will contribute to their overall wellbeing.
7. Understanding how to overcome anxiety or other barriers to participating in fun, enjoyable or rewarding activities – that it's possible to overcome those barriers using coping strategies, and that finding the courage to participate in activities which initially feel challenging may decrease anxiety over time rather than increasing it.

8. That gambling can lead to serious mental health harms, including anxiety, depression, and suicide, and that some gambling products are more likely to cause these harms than others.
9. That the co-occurrence of alcohol/drug use and poor mental health is common and that the relationship is bi-directional: mental health problems can increase the risk of alcohol/drug use, and alcohol/drug use can trigger mental health problems or exacerbate existing ones. That stopping smoking can improve people's mental health and decrease anxiety.

Wellbeing online

Curriculum content:

1. About the benefits of limiting time spent online, the risks of excessive time spent on electronic devices and the impact of positive and negative content online on their own and others' mental and physical wellbeing.
2. The similarities and differences between the online world and the physical world, including: the impact of unhealthy or obsessive comparison with others online (including through setting unrealistic expectations for body image); how people may curate a specific image of their life online; the impact that an over-reliance on online relationships, including relationships formed through social media, can have.
3. How to identify harmful behaviours online (including bullying, abuse or harassment) and how to report, or find support, if they have been affected by those behaviours.
4. The risks related to online gambling and gambling-like content within gaming, including the accumulation of debt.
5. How advertising and information is targeted at them and how to be a discerning consumer of information online, understanding the prevalence of misinformation and disinformation online, including conspiracy theories.
6. The risks of illegal behaviours online, including drug and knife supply or the sale or purchasing of illicit drugs online.
7. The serious risks of viewing online content that promotes self-harm, suicide or violence, including how to safely report this material and how to access support after viewing it.

Physical health and fitness

Curriculum content:

1. The characteristics of a healthy lifestyle, including physical activity and maintaining a healthy weight, including the links between an inactive lifestyle and ill-health, including cardiovascular ill-health.
2. Factual information about the prevalence and characteristics of more serious health conditions.
3. That physical activity can promote wellbeing and combat stress.
4. The science relating to blood, organ and stem cell donation.

Healthy eating

Curriculum content:

1. How to maintain healthy eating and the links between a poor diet and health risks, including tooth decay, unhealthy weight gain, and cardiovascular disease.
2. The risks of unhealthy weight gain, including increased risks of cancer, type 2 diabetes and cardiovascular disease.
3. The impacts of alcohol on diet and unhealthy weight gain.

Drugs, alcohol, tobacco and vaping

Curriculum content:

1. The facts about which drugs are illegal, the risks of taking illegal drugs, including the increased risk of potent synthetic drugs being added to illegal drugs, the risks of illicit vapes containing drugs, illicit drugs and counterfeit medicines, and the potential health harms, including the link to poor mental health.
2. The law relating to the supply and possession of illegal substances.
3. The physical and psychological risks associated with alcohol consumption. What constitutes low risk alcohol consumption in adulthood, and the legal age of sale for alcohol in England. Understanding how to increase personal safety while drinking alcohol, including how to decrease the risks of having a drink spiked or of poisoning from potentially fatal substances such as methanol.
4. The physical and psychological consequences of problem-use of alcohol, including alcohol dependency.
5. The dangers of the misuse of prescribed and over-the-counter medicines.
6. The facts about the multiple serious harms from smoking tobacco (particularly the link to lung cancer and cardiovascular disease), the benefits of quitting and how to access support to do so.
7. The facts about vaping, including the harms posed to young people, and the role that vapes can play in helping adult smokers to quit.

Health protection and prevention, and understanding the healthcare system

Curriculum content:

1. Personal hygiene, germs and how they are spread, including bacteria and viruses, treatment and prevention of infection, and about antibiotics.
2. Dental health and the benefits of good oral hygiene, including brushing teeth twice a day with fluoride toothpaste and cleaning between teeth, reducing consumption of sugar-containing food and drinks, and regular check-ups at the dentist.
3. How and when to self-care for minor ailments, and the role of pharmacists as knowledgeable healthcare professionals.

4. The importance of taking responsibility for their own health, and the benefits of regular self-examination and screening.
5. The facts and scientific evidence relating to vaccination, immunisation and antimicrobial resistance. The introduction of topics relating to vaccination and immunisation should be aligned with when vaccinations are offered to pupils.
6. The importance of sufficient good-quality sleep for good health, the importance of screen-free time before bed and removing phones from the bedroom, and how a lack of sleep can affect weight, mood and ability to learn.
7. The importance of healthy behaviours before and during pregnancy, including the importance of pre-conception health, including taking folic acid. The importance of pelvic floor health. Information on miscarriage and pregnancy loss, and how to access care and support.
8. How to navigate their local healthcare system: what a GP is; when to use A&E / minor injuries; accessing sexual health and family planning clinics; the role of local pharmacies; and how to seek help via local third sector partners which may have specialist services.
9. The concept of Gillick competence. That the legal age of medical consent is 16. That before this, a child's parents will have responsibility for consenting to medical treatment on their behalf unless they are Gillick competent to take this decision for themselves. Pupils should understand the circumstances in which someone over 16 may not be deemed to have capacity to make decisions about medical treatment.

Personal safety

Curriculum content:

1. How to identify risk and manage personal safety in increasingly independent situations, including around roads, railways – including level crossings - and water (including the water safety code), and in unfamiliar social or work settings (for example the first time a young person goes on holiday without their parents).
2. How to recognise and manage peer influence in relation to risk-taking behaviour and personal safety, including peer influence online and on social media.
3. How to develop key social and emotional skills that will increase pupils' safety from involvement in conflict and violence. These include skills to support self-awareness, self-management, social awareness, relationship skills and responsible decision making, as well as skills to recognise and manage peer pressure.
4. Understanding which trusted adults they can talk to if pupils are worried about violence and/or knife crime.
5. The law as it relates to knives and violence. Content and examples should relate to the local context and avoid using fear as an educational tool.

Children should be taught that carrying weapons is uncommon, and should not be scared into the perception that many young people are carrying knives (which can lead to the misconception that they need to carry a knife too).

6. The risks and signs that they may be at risk of grooming or exploitation, and how to seek help where there is a concern.

Basic first aid:

Curriculum content:

1. Basic treatment for common injuries and ailments.
2. Life-saving skills, including how to administer CPR.
3. The purpose of defibrillators, when one might be needed and who can use them.

Developing bodies:

Curriculum content:

1. The main changes which take place in males and females, and the implications for emotional and physical health.
2. The facts about puberty, the changing adolescent body, including brain development.
3. About menstrual and gynaecological health, including: what is an average period; period problems such as premenstrual syndrome; heavy menstrual bleeding; endometriosis; and polycystic ovary syndrome (PCOS). When to seek help from healthcare professionals.
4. The facts about reproductive health, including fertility and menopause, and the potential impact of lifestyle on fertility for men and women.

7. Health education programmes of study

The school will determine an age-appropriate, developmental curriculum which meets the needs of young people and includes the statutory content outlined in [section 6](#) of this policy.

Year 7

- Puberty in girls
- Puberty in boys
- Hygiene and self-care
- The effects of alcohol
- Risk and safety
- First aid
- Mental and emotional wellbeing
- Healthy eating
- Screen time and wellbeing

Year 8

- Products to help us through puberty
- Signs of poor mental health
- Young people and vaping
- Knife crime
- Conception and contraception
- FGM and forced marriage

Year 9

- Reproductive anatomy and methods to contraception
- Different forms of STIs and treatments
- Mental health and social media use
- Substance abuse and its impact
- Coping with bereavement and loss
- Supporting our health
- When our health goes wrong

Year 10

- Menstrual, gynaecological and reproductive health
- Maintaining sexual health
- Signs of stress, anxiety and depression
- Impact of drug abuse and addiction
- Pregnancy and options
- Suicide and getting help
- First aid and CPR

Year 11

- Suicide and its impact
- Miscarriage and stillbirth
- Physical signs of addiction and psychological impact
- Binge drinking and its impact
- Money stresses and pressures
- Drugs at parties and festivals
- Planning healthy meals

8. Delivery of the curriculum

Through effective organisation and delivery of the RSHE, we will ensure that:

- Core knowledge is sectioned into units of a manageable size.
- The required content is communicated to pupils clearly, in a carefully sequenced way, within a planned scheme of work.

- Teaching includes sufficient and well-chosen opportunities and contexts for pupils to embed new knowledge so that it can be used confidently in real-life situations.

RSHE complement several other curriculum subjects. Where appropriate, the school will look for opportunities to make links between the subjects and integrate teaching.

The RSHE curriculum will be delivered by appropriately trained members of staff.

The curriculum will proactively address issues in a timely way in line with current evidence on pupil's physical, emotional and sexual development. RSHE will be delivered in a non-judgemental, age-appropriate, factual and inclusive way that allows pupils to ask questions in a safe environment.

Teaching of the curriculum reflects requirements set out in law, particularly in the Equality Act 2010, so that pupils understand what the law does and does not allow, and the wider legal implications of the decisions they make.

The school will integrate LGBTQ+ content into the RSHE curriculum – this content will be taught as part of the overall curriculum, rather than a standalone topic or lesson. LGBTQ+ content will be approached in a sensitive, age-appropriate and factual way that allows pupils to understand diverse identities and the features of stable and healthy same-sex relationships. All pupils are expected to learn about LGBTQ+ content, and parents do not have a statutory right to withdraw their children from lessons that include LGBTQ+ content.

The curriculum will be designed to focus on pupils of all gender identities and expressions and activities will be planned to ensure all are actively involved.

The school will ensure it delivers teaching on sensitive topics, e.g. the body, in a way that is appropriate and sensitive to the various needs of the school community, e.g. cultural background.

All teaching and resources will be assessed by the RSHE subject leader to ensure they are appropriate for the age and maturity of pupils, are sensitive to their religious backgrounds and meet the needs of any SEND, if applicable. Throughout every year group, appropriate diagrams, videos, books, games, discussion and practical activities will be used to assist learning. Inappropriate images, videos, etc., will not be used, and resources will be selected with sensitivity given to the age and cultural background of pupils. Pupils will be prevented from accessing inappropriate materials on the internet when using such to assist with their learning. The prevention measures taken to ensure this are outlined in the school's Online Safety Policy, and Acceptable Terms of Use Agreement.

Teachers will establish what is appropriate for one-to-one and whole-class settings, and alter their teaching of the programmes accordingly. Teachers will ensure that pupils' views are listened to and will encourage them to ask questions and engage in discussion. Teachers will answer questions sensitively and honestly.

At Woodrush, staff will be trained on the best practice principles for teaching PSHE education (as advised by the PSHE Association), including:

- Starting from where pupils are (age and development)
- Balance knowledge with skills and attributes
- Make learning accessible to all
- Handle myths and misconceptions with care
- Provide accurate, unbiased information
- Take a positive approach
- Don't ignore, glamourise, or instruct in harmful behaviours
- Don't set out to shock, shame or scare
- Assess learning and progress
- Give time for personal reflection

Teachers will focus heavily on the importance of healthy relationships, including marriage, when teaching RSE, though sensitivity will always be given as to not stigmatise pupils on the basis of their home circumstances. In teaching the curriculum, teachers will be aware that pupils may raise topics such as self-harm and suicide. When talking about these topics in lessons, teachers will be aware of the risks of encouraging these behaviours and will avoid any resources or material that appear as instructive rather than preventative.

Teachers will ensure lesson plans focus on challenging perceived views of pupils based on protected characteristics, through exploration of, and developing mutual respect for, those different to themselves.

At all points of delivery of the curriculum, parents will be consulted, and their views will be valued. What will be taught and how, will be planned in conjunction with parents.

The procedures for assessing pupil progress are outlined in [section 15](#) of this policy.

9. Curriculum links

The school will seek opportunities to draw links between RSHE and other curriculum subjects wherever possible to enhance pupils' learning. RSHE will be linked to the following subjects:

- **Citizenship** – pupils are provided with the knowledge, skills and understanding to help prepare them to play a full and active part in society, including an understanding of how laws are made and upheld and how to make sensible decisions.
- **Science** – pupils are taught about the main external parts of the body and changes to the human body as it grows, including puberty.
- **ICT and computing** – pupils are taught about how they can keep themselves safe online and the different risks that they may face online as they get older.

- **PE** – pupils can develop competence to excel in a broad range of physical activities, are physically active for sustained periods of time, engage in competitive sport and lead healthy, active lives.
- **PSHE** – pupils learn about respect and difference, values and characteristics of individuals.

10. Working with parents

The school understands that parents' role in the development of their children's understanding about relationships, sex and health is vital and will, therefore, engage parents as far as possible in their children's learning. This will include providing parents with frequent opportunities to understand and ask questions about the school's approach to RSHE.

The school will consult closely with parents when reviewing the content of the school's RSHE curriculum policy, and will be given regular opportunities to voice their opinions and concerns. The school will use the views of parents to inform decisions made about the curriculum content and delivery; however, parents will not be granted a 'veto' on curriculum content, and all final decisions will be the school's to make.

When in consultation with parents, the school will provide:

- The curriculum content, including what will be taught and when.
- Examples of the resources the school intends to use to deliver the curriculum.
- Information about parents' right to withdraw their child from non-statutory elements of RSHE.

The school will remain aware that the teaching of some aspects of the curriculum may be of concern to parents. If parents have concerns regarding RSHE, they will submit these to office@woodrush.org, or contact the school office to arrange a meeting with the headteacher on 01564823777.

11. Working with external agencies

Working with external agencies will be used to enhance our delivery of RSHE and bring in specialist knowledge and different ways of engaging pupils. External experts may be invited to assist from time-to-time with the delivery of the RSHE curriculum but will be expected to comply with the provisions of this policy.

When working with external agencies, the school will:

- Check the visitor credentials of all external agencies.
- Ensure the teaching delivered by the external experts fits with the planned curriculum and provisions of this policy.
- Discuss with the visitor the details of how they intend to deliver their sessions and ensure the content is age-appropriate and accessible for all pupils.
- Request copies of the materials and lesson plans the visitor will use, to ensure it meets the full range of pupils' needs.

- Agree with the agency on how confidentiality will work in any lesson and that the visitor understands how safeguarding reports must be dealt with in line with the school's Safeguarding and Child Protection Policy.

The school will use visitors to enhance teaching by an appropriate member of teaching staff, not to replace teaching by those staff.

12. Withdrawal from lessons

Everyone has relationships with others, and most pupils will develop sexual relationships at some point in their lives. Relationships education should equip pupils with the knowledge and skills they need to act with kindness and respect in all their relationships as they grow into adulthood, to enjoy their relationships, and to keep themselves and others safe.

The school will always recognise that parents have the right to have the right to request that their child is withdrawn from some or all of sex education delivered as part of statutory RSE. Parents do not have the right to withdraw their pupils from relationships and health education, nor can they be withdrawn from topics taught as part of the science curriculum, including science topics related to puberty or sexual reproduction.

Requests to withdraw a child from sex education will be made in writing to the headteacher.

Before granting a withdrawal request, the headteacher will discuss the request with the parents and, as appropriate, the pupil, to ensure their wishes are understood and to clarify the nature and purpose of the curriculum. The headteacher will inform parents of the benefits of their child receiving RSE. This likely to include discussing the benefits of sex education, and any detrimental effects of withdrawal, including social and emotional impacts on the child, and the likelihood that the child will hear their peers' version of what was said in class, which may not be accurate. Schools will want to document this process to ensure a record is kept. All discussions with parents will be documented and a record will be securely kept.

Following discussions with parents, the school will respect the parents' request to withdraw their child up to and until three terms before the pupil turns 16. After this point, if the pupil wishes to receive RSE rather than be withdrawn, the school will make arrangements to provide the pupil with RSE. Pupils who are withdrawn from RSE will receive appropriate, purposeful education during the full period of withdrawal.

For requests concerning the withdrawal of a pupil with SEND, the headteacher will take the pupils' specific needs into account when making their decision.

13. Equality and accessibility

The school will comply with the relevant requirements of the Equality Act 2010 and will ensure the curriculum does not discriminate against pupils because of their:

- Age
- Sex
- Race
- Disability
- Religion or belief
- Gender reassignment
- Pregnancy or maternity
- Marriage or civil partnership
- Sexual orientation

The school will consider the backgrounds, gender, age range and needs of its pupils and determine whether it is necessary to put in place additional support for pupils with the above protected characteristics.

The school will design the RSHE curriculum to be inclusive of all pupils. The school will be aware that some pupils are more vulnerable to exploitation, bullying and other issues due to their characteristics, e.g. SEND or being LGBTQ+. Teachers will understand that they may need to liaise with the SENCO and be more explicit and adapt their planning or work to appropriately deliver the curriculum to pupils with SEND.

Where there is a need to tailor content and teaching to meet the needs of pupils at different developmental stages, the school will ensure the teaching remains sensitive, age-appropriate, developmentally appropriate and is delivered with reference to the law.

The school will take steps to foster healthy and respectful peer-to-peer communication and behaviour between all pupils, and provide an environment which challenges perceived limits on pupils based on their gender or any other characteristic.

RSE lessons should ensure that both boys and girls have opportunities to practise respectful communication and understand experiences which are different from their own, including menstruation and menopause. However, in some cases, such as when a school identifies a specific need, the school may consider that separating classes by sex is the best way to create a safe space for discussion of a particular topic. This should be done in a way that avoids stigmatising boys or making girls feel like they will inevitably be victims of abusive behaviour or that it is their responsibility to protect themselves.

The school will be actively aware of everyday issues such as sexism, misogyny, homophobia and gender stereotypes and take positive action to build a culture within which these are not tolerated. Any occurrences of such issues will be identified and managed promptly. Sexual violence and sexual harassment are not acceptable and will not be tolerated. Any reports of sexual violence or sexual harassment will be handled in accordance with the school's Child on Child Abuse Policy.

Addressing sexual harassment and violence

Relationships education has an important role in supporting young people to develop the skills they need to build healthy relationships and grow into kind and respectful adults. The curriculum will seek to support young children to develop skills for positive relationships, including skills for navigating boundaries with kindness and respect. It should support young children to behave with respect and to understand and identify prejudice. This curriculum can help to prevent sexual violence and abusive behaviour or the risks associated with theme that may affect our young people.

Supporting young people at Woodrush to develop the skills they need to build healthy relationships should be part of a whole school approach and underpin schools' policies, including behaviour and safeguarding, to ensure that an ethos of kindness and respect is evident throughout our school.

Woodrush pupils should understand that anyone can be a victim of sexual violence, regardless of sex, sexual orientation, gender reassignment or any other protected characteristic, and that the victim is never to blame. It is important to acknowledge that most sexual violence is committed against women and girls, and it often has a gendered component – for example, manifesting an inequality of power between men and women. However, anyone can be affected by sexual violence and teachers should avoid language which stigmatises boys or suggests that boys or men are always perpetrators or that girls or women are always victims.

Both within and beyond the classroom, Woodrush staff should be conscious of everyday sexism, misogyny, homophobia and stereotypes, and should take action to build a culture where prejudice is identified and tackled. Staff have an important role in modelling positive behaviour and avoiding language that might perpetuate harmful stereotypes. Pupils should understand the importance of challenging harmful beliefs and attitudes and should understand the links between sexism and misogyny and violence against women and girls. Where misogynistic ideas are expressed at school, staff should challenge the ideas, rather than the person expressing them.

Woodrush pupils should have opportunities to develop positive conceptions of masculinity and femininity, including how to identify and learn from positive male role models. It is important for pupils to understand that most boys and young men are respectful to girls and young women and each other. Pupils may be exposed to online content which normalises harmful or violent sexual behaviours, which might include sexist and misogynistic influencers who normalise sexual harassment and abuse. Young people may be more vulnerable to this content when they have low self-esteem, are being bullied, or have other challenges in their lives. Teachers should encourage pupils to consider how this content may be harmful to both men and women, while avoiding stigmatising or perpetuating harmful stereotypes about boys, and avoiding directly signposting to specific content and content producers.

It is important for pupils to understand that ethical behaviour in friendships and other relationships goes beyond respecting boundaries and consent, and that strong

relationships of all types involve kindness and care. RSE lessons should be clear that all sexual activity should involve kindness, care, attention to the needs and vulnerabilities of the other person and an awareness of the power dynamics that can exist within relationships.

RSE lessons should ensure that both boys and girls have opportunities to practise respectful communication and understand experiences which are different from their own, including menstruation and menopause. However, in some cases, such as when a school identifies a specific need, the school may consider that separating classes by sex is the best way to create a safe space for discussion of a particular topic. This should be done in a way that avoids stigmatising boys or making girls feel like they will inevitably be victims of abusive behaviour or that it is their responsibility to protect themselves.

14. Safeguarding & confidentiality

All pupils will be taught about keeping themselves safe, including online, as part of a broad and balanced curriculum.

To meet DfE's best practice advice, the DSL will be involved in the formulation of safeguarding-related areas of the curriculum, as the knowledge and resources may help to address safeguarding issues more appropriately and effectively.

When teaching issues that are particularly sensitive for pupils of all ages, e.g. self-harm or suicide, teachers will be made aware of the risks of inadvertently encouraging, or providing instructions to, pupils. Teaching of these subjects will always prioritise preventing harm to pupils as a central goal.

Confidentiality within the classroom will be an important component of RSHE, and teachers will be expected to respect the confidentiality of their pupils as far as is possible, in compliance with the school's Confidentiality Policy.

To promote a safe and supportive environment for all pupils, staff will be trained to utilise a number of teaching strategies, including:

- Agreeing ground rules:
- Handling questions safely
- Considering vulnerabilities
- Ensuring inclusivity
- Using distancing strategies
- Signposting support
- Knowing our policies and procedures

Teachers will, however, understand that some aspects of RSHE may lead to a pupil raising a safeguarding concern, e.g. disclosing that they are being abused, and that if a disclosure is made, the DSL will be alerted immediately. Pupils will be made aware of how to raise their concerns or make a report, and how their report will be handled – this includes the process for when they have a concern about a peer.

15. Assessment

The school will have the same high expectations of the quality of pupils' work in RSHE as for other curriculum areas. Lessons will be planned to provide suitable challenge to pupils of all abilities.

Teaching will be assessed and assessments used to identify where pupils need extra support or intervention. There are no formal examinations for RSHE; however, to assess pupil outcomes, the school will capture progress in the following ways:

- Tests
- Self-evaluations

16. Staff training

Training will be provided by the RSHE subject leader to the relevant members of staff on a termly basis to ensure they are up-to-date with the RSHE curriculum. Training will also be scheduled around any updated guidance on the curriculum and any new developments, e.g. "sexting", which may need to be addressed in relation to the curriculum.

Appropriately trained staff will be able to give pupils information on where and how to obtain confidential advice, counselling and treatment, as well as guidance on emergency contraception and their effectiveness.

17. Monitoring and review

The RSHE subject leader will be responsible for monitoring the quality of teaching and learning for the subject. They will conduct subject assessments on a termly basis, which will include a blend of the following:

- Self-evaluations
- Stakeholder surveys
- Parent Forum consultations
- Lesson observations
- Topic feedback forms
- Learning walks
- Work scrutiny
- Lesson planning scrutiny

The RSHE subject leader will create annual subject reports for the headteacher and governing committee to report on the quality of the subjects. They will also work regularly and consistently with the headteacher and local governors this may be through regular curriculum review meetings, to evaluate the effectiveness of the subjects and implement any changes.

This policy will be reviewed by the headteacher in conjunction with the RSHE subject leader on an annual basis.

Any changes needed to the policy, including changes to the programmes, will be implemented by the headteacher. Any changes to the policy will be clearly communicated to all members of staff and, where necessary, parents and pupils, involved in the RSHE curriculum.

The next scheduled review date for this policy will be July 2027.
