

# Nut Allergy Policy Statement

Whilst we are unable to completely eliminate the possibility that nut or nut products may be present in the raw ingredients supplied to us, we require our suppliers to make all reasonable efforts to ensure they comply with our policy statements in this area.

We ensure that we display signage in prominent positions within the catering areas in which we work, highlighting our nut policy statement, and train our staff to draw customer's attention to the policy.

We encourage our workforce to attend appropriate training sessions in understanding and dealing with allergic reactions, including Anaphylactic shock.

***It is the policy of  
Aspens Services Ltd  
that we will not  
knowingly serve food  
containing nuts,  
including the  
prevention of purchase  
of peanut butter,  
Nutella, all nuts and  
cooking oil containing  
peanut oil, as well as  
foods containing nuts.***
